

02. Punisher

Watch out the law lost its chain
the skull of the night is bringing torture bringing pain
in stead I'm hardcore, will punish more and more
I'm a ghost full of hate, revenge is my fate, hate my fate

time out you're not dealing fair
I'm loading my guns flying bullets everywhere
welcome to my war it's what I'm fighting for
I'm a ghost full of hate, for mercy it's to late so

**shout shout - I'm a killer
shout shout - rule the dice
shout shout - human driller
shout with wide eyes
shout shout - I'm a killer
shout shout - with a knife
shout shout - I'm your thriller
shout for your life shout to survive**

someone has to turn over the page
therefore I am here so feel my motherfuckin' rage
knee down on the floor, will punish more and more
I'm a ghost full of hate, for mercy it's to late so

**shout shout - I'm a killer
shout shout - rule the dice
shout shout - human driller
shout with wide eyes
shout shout - I'm a killer
shout shout - with a knife
shout shout - I'm your thriller
shout for your life shout to survive**
