

03. The Game

met a man down on the street and he stood in the way
he said dude I won't step beside as long as we don't play
so that's a thing where I don't have to choose
cause I'm a man who has nothing to loose
needn't to ask me twice cause I play for the game the game and the price

well he thaught I'm easy to handle a boy for ripping of
but I'm a man a sly dog who's playing a league above
so that's most people's fault thinking that they've become the lord
thinking they never fail but I'm your truth your rusty nail cause

**I'm playing the game
I'm playing the game
remember my name
when you're playing my game**

I'm here for competition, I'm a gambler on a run
maybe I win maybe I loose no risk no game no fun
so that's what's all about the thing you have to tell the crowd
a thing called ecstasy so try to mess with me cause

**I'm playing the game
I'm playing the game
remember my name
when you're playing my game**

met a man down on the street and he stood in the way
he said dude i step beside with you I don't wanna play
so that's the thing what happens to me I could loose that's all they see
people don't ask me twice cause they fear my name and the bet for the price

**I'm playing the game
I'm playing the game
remember my name
when you're playing**

**I'm playing the game
I'm playing the game
remember my name
when you're playing my game**

my game, my game, my game, my game...
