

06. Horse To The Sun

I'm coming home to my friends to my band,
all for one just for the time that we spend
a beer to the left, a glass to the right,
the chillout formation is ready for the flight and I'm

**riding with my horse to the sun where my mind is free memories are gone
no tears no lies Rock 'n' Roll is my name and all I don't feel - is pain**

leaving reality don't rest and stay, in the fifth dimension is another game to play
come believe me, I am no liar it's time to break free, time to get high and I'm

**riding with my horse to the sun where my mind is free oh memories are gone
no tears no lies Rock 'n' Roll is my name and all I don't feel - is pain**

back in reality, what do you mean, come tell the truth that what you have seen
now do you believe? am I a liar, no come again again we're getting high and I'm

**riding with my horse to the sun where my mind is free oh memories are gone
no tears no lies Rock 'n' Roll is my name and all I don't feel - is pain**
