

# 11. Ride

All that I see, you're the slaves of your life  
riding to the sun, the only way to survive

## Bridge:

hey everybody listen to me, I know the way the way to be free  
the way to the light the way to sun so join me and you're welcome

**(on the) ride, with the Iron Horse on fire  
to a side, where we always gettin' higher**

Don't look to the past, just stay on the road  
and with Rock 'n' Roll I'm gonna explode

## Bridge:

hey everybody listen to me, I know the way the way to be free  
the way to the light the way to sun so join me and you're welcome

**(on the)ride, with the Iron Horse on fire  
to a side, where we always gettin' higher**
